

Social Services/Family and Community Engagement

Who We Are

The Social Services Team represents an organized method of assisting families in meeting their own needs and providing those services that will build on the individual strengths of the families.

What We Do

The Social Services Team empowers the family to maintain a strong sense of direction, self-awareness, self-esteem and family pride. The Social Services Team is responsible for the day-to-day social service needs of families. Referrals are made as necessary to appropriate public and private agencies in response to mental health care, food, clothing, medical care, dental care, housing, financial assistance, etc. The Social Services Team also establishes community partnerships that contribute to their development in the areas of nutrition, health, child abuse/neglect, literacy etc.
